

Efficient Bottling with ZORK^{STL}

Brett Forsyth

Bottling Manager, Red Knot Wines (625,000 bottles in 2006)

"I'd rather bottle with ZORK than other closures any day. It makes my life heaps easier.

- *No vacuum problems*
- *No looking after corker jaws*
- *No Bell Guide changes*
- *No vacuum pumps*
- *No tuck and thread rollers*
- *No breaking bridges*
- *No torque tension settings*

You don't have to treat them like babies. You'll break the bottle before you break a ZORK."

SIMPLE

- Application options for all run sizes
- Simple, low cost adaptation to existing screw capping or corking line
- Tolerant to bottle variation and no sensitive equipment adjustment
- Immediate upright storage – no lay down or inverting required

RELIABLE

- Low equipment maintenance due to less moving capping parts
- NO product shelf life (when stored as per recommendations)
- NO cork taint or random oxidation
- Robust and Tough – no denting at all stages of the line – off and on the bottle
- Clean

HIGH SPEED

- Fast fill of cork mouth bottles
- Simple and fast line set up / changeovers
